WRITING

Read the extract below. It is part of a newspaper article on the loss of national and cultural identity, in which readers were asked to send in their opinions. You decide to write a letter responding to the points raised and expressing your own views.

Write your answer in 120 - 150 words in an appropriate style.

Do not write any postal address.

We are losing our national and cultural identity. Because recent advances in technology and the easy availability and speed of air travel, different countries are communicating more often and are therefore becoming more and more alike. The same shopping malls and fast food outlets can be found almost everywhere. So can the same types of office blocks, motorways, TV programmes and even lifestyles. How can we maintain the traditions that make each nation unique?

After having seen your article, I would like to express my own views. Nowadays the process of globalization and multiculturalism goes frighteningly fast. We are really losing everything that our people have reached since the very first years of our civilization. So we should do everything to protect our cultural identity. In my opinion, the government should take part in a maintenance of the culture. They can arrange different kinds of events which would remind people of who they are and of their role in a national culture. Moreover, people themselves can organize different historical meetings where they can learn about the history of their country and their region more. In conclusion, I want to say that schools these days should do a great job of educating young generations and telling them about the mightiness of our culture. Thank you for your consideration.
