## WRITING

Read the extract below. It is part of a newspaper article on the loss of national and cultural identity, in which readers were asked to sent in their opinions. You decide to write a letter responding to the points raised and expressing your own views.

Write your answer in 120 - 150 words in an appropriate style.

Do not write any postal address.

We are losing our national and cultural identity. Because recent advances in technology and the easy availability and speed of air travel, different countries are communicating more often and are therefore becoming more and more alike. The same shopping malls and fast food outlets can be found almost everywhere. So can the same types of office blocks, motorways, TV programmes and even lifestyles. How can we maintain the traditions that make each nation unique?

November 8, 2019

I completely agree that today many nations are losing their identity. Towns and cities in different regions of my country and even in different countries in absolutely different places are looking similar. I can say the problem is global. So what can we do to stay unique?

I believe that every citizen must feel love to the place where he was born. He must know its history and traditions of the nation he belongs to. ~~Because~~ Many people think they don't need to know such important things. Of course, if people won't be interested in saving cultural values of their country and in the history of their nation they will be <sup>not</sup> interested in saving their national identity as well. That's why, in my opinion, ~~we must~~ our first mission is to make history of nations be told to people.
