## WRITING

Read the extract below. It is part of a newspaper article on the loss of national and cultural identity, in which readers were asked to sent in their opinions. You decide to write a letter responding to the points raised and expressing your own views.

Write your answer in 120 - 150 words in an appropriate style.

Do not write any postal address.

We are losing our national and cultural identity. Because recent advances in technology and the easy availability and speed of air travel, different countries are communicating more often and are therefore becoming more and more alike. The same shopping malls and fast food outlets can be found almost everywhere. So can the same types of office blocks, motorways, TV programmes and even lifestyles. How can we maintain the traditions that make each nation unique?

As a matter of fact countries' cultures become more and more similar. And it's really awful, because world culture is losing huge variety of different and interesting customs, traditions and everything <sup>national</sup> culture consists of!

I think that the main reason why countries are losing their identity is that people don't understand the preciousness and beauty of their own culture. So, from my point of view, government must encourage its citizens to save their history and culture: arrange different festivals and holidays telling about national customs. Besides, government should look after different monuments, cathedrals and old buildings that will make people know more about history of their country.

To sum up, ~~we can't forbid~~ people to communicate the best way to maintain the traditions that make each nation unique is showing to everyone how beautiful each countries' cultures are.
