WRITING

Read the extract below. It is part of a newspaper article on the loss of national and cultural identity, in which readers were asked to sent in their opinions. You decide to write a letter responding to the points raised and expressing your own views.

Write your answer in 120 - 150 words in an appropriate style.

Do not write any postal address.

We are losing our national and cultural identity. Because recent advances in technology and the easy availability and speed of air travel, different countries are communicating more often and are therefore becoming more and more alike. The same shopping malls and fast food outlets can be found almost everywhere. So can the same types of office blocks, motorways, TV programmes and even lifestyles. How can we maintain the traditions that make each nation unique?

Today the problem of national identity loss is truly one of the most pressing. I fully agree with the author, ~~that~~ who ~~said~~ said that we are losing our culture. U.S.A. and European things are popular now, so Russian people like them too and want to create something similar in Russia. But they don't invent anything new. They just copy trends from the West.

We have lots of talented people in Russia and that is why I hope that we'll stop copying from the West and start using their minds to make our country unique.

On the other hand, even though we use Western types of shops, office blocks and malls, it can't influence much on our traditions. Even if we will start using only foreign things we'll still have our holidays, traditions and customs.
