WRITING

Read the extract below. It is part of a newspaper article on the loss of national and cultural identity, in which readers were asked to sent in their opinions. You decide to write a letter responding to the points raised and expressing your own views.

Write your answer in 120 - 150 words in an appropriate style.

Do not write any postal address.

We are losing our national and cultural identity. Because recent advances in technology and the easy availability and speed of air travel, different countries are communicating more often and are therefore becoming more and more alike. The same shopping malls and fast food outlets can be found almost everywhere. So can the same types of office blocks, motorways, TV programmes and even lifestyles. How can we maintain the traditions that make each nation unique?

I intend to explain how people could maintain the traditions in this letter.

Undoubtedly, the problem of saving every country's culture is controversial. There is a lot of controversy over the years. Every citizen must understand that he is a part of his country, and he should take care of his motherland culture and nature. Everyone can start with himself. For instance, a student can make a presentation where he tells his classmates how great it is to maintain traditions. To make each nation unique every person should cooperate with other people to create new outdoor activities or exhibitions where different aged people could see or listen about patriotism. Various speeches can make everyone a patriotic person. Also you can simply become famous for your works of art and make your country famous.
