WRITING

Read the extract below. It is part of a newspaper article on the loss of national and cultural identity, in which readers were asked to sent in their opinions. You decide to write a letter responding to the points raised and expressing your own views.

Write your answer in 120 - 150 words in an appropriate style.

Do not write any postal address.

We are losing our national and cultural identity. Because recent advances in technology and the easy availability and speed of air travel, different countries are communicating more often and are therefore becoming more and more alike. The same shopping malls and fast food outlets can be found almost everywhere. So can the same types of office blocks, motorways, TV programmes and even lifestyles. How can we maintain the traditions that make each nation unique?

I want to tell you about cultural identities. I agree with the statement that we are losing our national identity nowadays. There are lots of factors that make the differences between nations unclear.

In my opinion we can make those differences more visible by doing the following things. Firstly, we have to decrease the affection of countries on each other. Secondly, we have to inform the younger generations about their national ~~country~~ culture and to interest them in keeping cultural identity. Thirdly, we have to respect and follow our ~~first~~ traditions. And even though our main goal is to keep cultures unique, we also have to treat other nations with respect.

In conclusion I want to say that if we follow the simple steps mentioned in the previous passage we will easily maintain the traditions that make nations unique.
