WRITING

Read the extract below. It is part of a newspaper article on the loss of national and cultural identity, in which readers were asked to send in their opinions. You decide to write a letter responding to the points raised and expressing your own views.

Write your answer in 120 - 150 words in an appropriate style.

Do not write any postal address.

We are losing our national and cultural identity. Because recent advances in technology and the easy availability and speed of air travel, different countries are communicating more often and are therefore becoming more and more alike. The same shopping malls and fast food outlets can be found almost everywhere. So can the same types of office blocks, motorways, TV programmes and even lifestyles. How can we maintain the traditions that make each nation unique?

Dear author,

Thank you for writing such an article. I had a lot of enjoyment reading it. I am glad to show you my own views about this situation.

I think the problem which was touched is very serious and actual nowadays. It is true that today nations are losing their wonderful unique because of technologies and developing globalization. Wherever you travel you can come across similar buildings and places. From my point of view this problem has solution. Countries may create architect projects which would include all special things of that region. They also can build monument portraying their wonderful unique. Government must support national museum, theatres and all things of the past. Following these rules can save traditions from being forgotten.

Well, I hope that you will receive my letter and see my view. So, thanks for reading.

Your permanent reader,

Kate Ladanova
