		33 experience	68 A
		34 satisfaction	69 D
		35 colleagues load	70 F

WRITING

Read the extract below. It is part of a newspaper article on the loss of national and cultural identity, in which readers were asked to send in their opinions. You decide to write a letter responding to the points raised and expressing your own views.

Write your answer in 120 - 150 words in an appropriate style.

Do not write any postal address.

We are losing our national and cultural identity. Because recent advances in technology and the easy availability and speed of air travel, different countries are communicating more often and are therefore becoming more and more alike. The same shopping malls and fast food outlets can be found almost everywhere. So can the same types of office blocks, motorways, TV programmes and even lifestyles. How can we maintain the traditions that make each nation

I agree with opinion mentioned above. I think it is true that our civilization is losing national and cultural identity. This is sad. Answering the question above, I think that we can maintain the traditions by showing some information about them on TV, radio, on the Internet, writing in newspapers. We need our people to know who they are. We need them to know their cultural and national identity. I think we can ~~do~~ make some laws based on traditions. We need to make attention on history, because if people know history, they will know their identity. To learn history easier, we can learn it not since the 5th terms, but since the 1st. We can show some history and national programmes on TV, make a lot of useful pages on the Internet, make a special radio station with traditions and a lot of information about our identity.
