## WRITING

Read the extract below. It is part of a newspaper article on the loss of national and cultural identity, in which readers were asked to send in their opinions. You decide to write a letter responding to the points raised and expressing your own views.

Write your answer in 120 - 150 words in an appropriate style.

Do not write any postal address.

We are losing our national and cultural identity. Because recent advances in technology and the easy availability and speed of air travel, different countries are communicating more often and are therefore becoming more and more alike. The same shopping malls and fast food outlets can be found almost everywhere. So can the same types of office blocks, motorways, TV programmes and even lifestyles. How can we maintain the traditions that make each nation unique?

I am absolutely sure that it is necessary to save our national identity, it is important because there is a history of our country in it. Any nation cannot survive without a history so people cannot lose it

To maintain the traditions that make each nation unique we should know them. Firstly, it is necessary to study history of our own country. Secondly, we should not be influenced by trends of other countries. Thirdly, each nation should be proud of its traditions and propagates their importance in social media. Then only we will able to make our nation unique and great.

To sum up, I would like to say that every nation has to maintain its own traditions to save its own identity
