WRITING

Read the extract below. It is part of a newspaper article on the loss of national and cultural identity, in which readers were asked to send in their opinions. You decide to write a letter responding to the points raised and expressing your own views.

Write your answer in 120 - 150 words in an appropriate style.

Do not write any postal address.

We are losing our national and cultural identity. Because recent advances in technology and the easy availability and speed of air travel, different countries are communicating more often and are therefore becoming more and more alike. The same shopping malls and fast food outlets can be found almost everywhere. So can the same types of office blocks, motorways, TV programmes and even lifestyles. How can we maintain the traditions that make each nation unique?

Hello. I absolutely ~~agree~~ agree with everything that was mentioned in this article. In my opinion, it has become a serious world problem these days.

I have two ideas of solving it. Firstly, the amount of people from abroad that are living in your home-country should be controlled. I think, they bring their own traditions with them ~~but~~ because they do not want to support yours. This way emigrants influence to your national culture and change it as they want. Secondly, you should organise some national festivals, make holidays, open restaurants of your national cuisine.

You can also try to show people some historical ~~documentary~~ films about their ~~their~~ history, their nation and culture. I am convinced that it will help people to remember their traditions, history and stay unique.

I hope ~~my~~ ^{your} advice will be useful to you. Will you use my advice. Please write me back to tell about it.

Yours faithfully,
Aurora
